

## *Supernatural Visions of the Rapture*

### ***Vision 1 – April, 2010 – From Edem Seth Ganyoame of Ghana on Facebook***

My name is Edem Seth Ganyoame, 34 years of age and a computer system analyst. I had a series of visions which I'm trouble with. I saw a very tall man that I cannot see the face and he came to me around 7:30pm and he gave me pen and paper and he told me to follow him. When we left, we went to people houses here in Ghana. We were writing names of people while they are not aware of what is going on. Some houses they were 5 people in a house but the tall man will just let me write 2 or 3 people and He asked me to informed them that they should be ready. Some houses they are sleeping and either one of the will be put on my paper but some places all will be on my paper.

After we had finished from houses, we went into cemetery and started writing all the names that appears on the grave. Only names printed in GOLD were documented in the paper. The cemetery was dark but the time we got there, I saw bright light from heaven on us in the cemetery. It is more than hot afternoon. Some of... these names were fainted and can't be seen by my eyes so I could not write them down and the others NO names on them. All this took place within 30sconds. He said inform all Christians to be ready. After I got out of the cemetery and I was awake. So... trembling with fear!!!
